AEROSPACE EDUCATION

12 September 2004

Attention: **Maj Fran Gleockler**
Florida Wing Chief of Staff

From: **Lt Col John J. Lynn**
Director of Aerospace Education

AEROSPACE EDUCATION OBJECTIVES 1 July 2004 – 30 June 2005

1. Maintain the wing's National Aerospace Education Mission number 1 position.
2. Bring 1st Lt John Edwards on to the Wing AE Staff as the Wing Model Rocketry Officer. He is well qualified in model rocketry and model building. He will be a great asset to the Wing in this position.
3. Maj Linda Trimpey is in the process of building a team to update and improve the Wing AE web-site.
4. Increase participation and completion of the Aerospace Education Excellence

Program. The year 2004 had 23 registered; however, the number of completions is not know at this time.

5. Increase the number of Brewer Award nominations for both the senior and cadet categories. Reminder: all Brewers are to be submitted to the Wing DAE, and then are forwarded to Region.
6. Increase the number of Yeager Awards by 10%. Number of Yeagers awarded in 2003 was 44. As of this date, approximately 100 have been awarded for 2004.
7. Achieve a figure of 30 squadrons submitting the annual Squadron AE Activity Report.
8. Develop and implement a program for model rocketry competition within the Wing. Initial competitions would be held within the different groups, or areas as required. Different categories would be offered, such as scale and payload. Also, as spelled out in the new CAP Model Rocketry Program, pop bottle rockets and air powered rockets.
9. Assist the National AE Directorate at the Sun 'n Fun Air Show held April 05 at the Lakeland-Linder Airport.
10. Assist squadrons throughout the Wing to develop a good working relationship with their local AFA chapter. The AFA is a good partner with CAP and is willing to assist with the AE and Cadet Programs.
